

ACP Membership

ACP is the Most Influential Industry Group

With an annual budget nearing \$50 million dollars, ACP is the largest and most powerful industry association representing companies like yours

Historic Legislative Achievement Secured: Passage of the Inflation Reduction Act (IRA)

In September President Joseph Biden signed into law the largest investment in American clean power in US history, the IRA. The bill includes

The most substantial federal assistance the industry has ever had, over a decade of full-scale Production Tax Credit and Investment Tax Credit extensions

An Ambitious Policy Agenda to Drive the Industry Forward

ACP works with its members to define an ambitious policy and advocacy agenda at the federal, state and local level. This agenda is designed to clear the barriers to deployment, create markets, and protect the long-term interests of the industry.

ACP members have the ability to shape the association's priorities, specific policy stances, tactical decisions, and the market research we conduct on your behalf.

- **Secure favorable Treasury guidance and agency rulemaking** for the implementation of clean energy provisions in the Inflation Reduction Act
- **Enable stable and responsible supply chains**
- **Pursue workable siting and permitting rules** at the federal, state and local level
- **Facilitate transmission build out and market rules** needed to underpin the build out of clean energy resources
- **Address state-level policies** that could either enable or harm clean energy growth
- **Build political strength** in both sides of the aisle
- **Shape the narrative** about the industry during a period of rapid scaling post-IRA

Stay In The Know

Knowledge is power. ACP makes it easy to have the most timely and relevant information important to your company, your interests and your stakeholders.

Member Newsletters. Your weekly centralized source of the latest ACP information and engagement opportunities.

Clean Power Chronicle. Weekly update on the most important policy items in the industry.

Breaking News Alerts. Real-time alerts for breaking news.

Stay Ahead of the Curve with Proprietary Market Intelligence

ACP members have access to a team of leading industry analysts who have produced data and market reports not found anywhere else. This information allows your company to always be in the know and never miss important information.

Annual and Quarterly Market Reports: Market trends important for any company in the industry to be aware of including project details, PPA procurement, sales and data etc.

Topical Studies: Deep dives on the issues that matter most, e.g. Wage and Labor, skilled global supply chain database.

CleanpowerIQ Project Database: The largest and most complete database of solar storage and wind projects with regulatory, updated information that can be analyzed through multiple filters.

Customizable Presentations and Resources: Curated and formatted insights for your organization, use and reporting.

All ACP Members Have Access to the Same Baseline Benefits, with Dues Tailored to Different Types of Companies

The strength of ACP is our member companies. As such, all companies that join ACP enjoy access to the same baseline level of benefits.

Membership dues are uniformly calculated based on a company's overall size and interest in clean power, typically defined based on revenues for the US market related to wind, solar, and storage activities.

American Clean Power is the voice of companies from across the clean power sector that are powering America's future, providing cost-effective solutions to the climate crisis while creating jobs, spurring massive investment in the U.S. economy and driving high-tech innovation across the nation. We are uniting the power of America's renewable energy industry to advance our shared goals and to transform the U.S. power grid to a low-cost, reliable, and renewable power system. Learn more about the benefits clean power brings to America at www.cleanpower.org.
